

The Parliament Prize 2024

Student guide

Submitting your entry

You've done some great research and filmed a really good version of your Member's Statement, now it's time to submit your entry. Here are a few things to consider before you hit 'send'.

Before submitting your entry:

- Check that your entry is only 90 seconds long. Entries that are longer than 90 seconds won't be able to be uploaded (a few extra seconds is okay)
- If possible, save your video as either a MP4 or MOV file
 - You can select different file types when you choose 'save as'. These appear in the drop-down menu 'file type' under 'file name'
 - These file types tend to play on different devices, but most video files can be used
- Read the Terms and Conditions and check that it is okay to enter with your parents

What would you say to parliament if you were an MP?

When filling out the entry form:

- Make sure you spell your name and your email address correctly when filling out the entry form
- If you can't find your school name, make sure you are using your school's full name and not a shortened name or campus name. Try putting in/taking out the punctuation, or spelling words like Saint as St. or St. as Saint
- If you are a home school student, enter your school name as 'home school' and type in your home address
- All entries, once they are received, are sent a confirmation email. If you didn't receive one:
 - Check your spam or junk mail folders
 - Check that your inbox isn't full
 - If you think you entered the wrong email address, use the contact form on the website to let us know what your correct email address is.

Submit your entry well before the deadline

Sometimes files can take a long time to upload. If the entry is not uploaded by the time the Parliament Prize closes, your entry may not be included.
