

## EMPLOYMENT PORTFOLIO

6. Please advise the total cost of production of the YouTube video of the launch of the Jobs Victoria Employment Network.

*(Page 7 of the Employment portfolio transcript)*

### Response

- The total cost of production of the YouTube video was \$282.
- Filming and editing of the video was undertaken by a departmental employee. Two hours were spent filming and three hours editing.

7. Please describe any assistance that is available to small businesses through the Government procurement process that encourages disability social enterprises.

*(Page 16 of the Employment portfolio transcript)*

### Response

- The Andrews' Labor Government is committed to delivering better social outcomes for Victorians through the delivery of our massive infrastructure program, in partnership with the State's growing social enterprise sector.
- An example of this is our \$1.6 billion project to remove every level crossing between Caulfield and Dandenong where a comprehensive Social Procurement Plan has been developed by the project team.
- This Plan has identified a number of initiatives and social enterprises to assist the project in the supply of goods and services, including disability social enterprises.
- Additional opportunities will continue to be identified through the duration of the project, as well as other projects across Government.
