Roads and ports: VicRoads — media and communications staff

1541. MR D. M. DAVIS — To ask the Minister for Industry and Trade (for the Minister for Roads and Ports): for the financial year 2006–07, what was the total amount spent on advertising and promotion by VicRoads and how many full-time equivalent staff were employed in media and communications roles by the agency.

ANSWER:

I am informed that, as at the date the question was raised:

Expenditure totalling \$6.1 million was incurred during 2006–07, and 38.4 full time equivalent staff were employed to inform the community about:

- Important changes to the transport system
- Improved customer and traffic management services
- New regulations governing road users in the interests of public safety and efficient transport
- Issues in relation to specific road improvement projects and asset management activities

and to attract strong candidates to VicRoads recruitment processes.

Attorney-General: travel expenses

2335. MR DALLA-RIVA — To ask the Minister for Planning (for the Attorney-General): In relation to expenditure on overseas travel by each department, agency or authority within the Minister's administration for each financial year from 2000–01 to 2006–07:

- (1) How many people undertook such travel and to what destinations.
- (2) What was the purpose of visiting each destination.
- (3) With whom did the Minister or persons undertaking such travel meet and for what purpose.
- (4) What costs were associated with the travel indicating —
 - (a) airfares;
 - (b) car rental and hire cars, including types of cars hired or rented;
 - (c) taxis;
 - (d) accommodation, including name of establishment and the itemised costs;
 - (e) entertainment, including nature, venue and itemised costs; and
 - (f) other expenses.
- (5) Did family members, associates, or guests accompany the traveller(s) on each trip; if so, at what cost.

ANSWER:

I am advised that:

The figures outlined below include overseas travel expenses assigned to Department of Justice business unit and statutory agency cost codes in the department’s Oracle Financial System. However, it should be noted that not all statutory agencies report via the Department of Justice. It would be an unreasonable diversion of the Department’s resources to obtain overseas travel figures from each agency that does not report via the Department’s Oracle Financial System.

The department’s Oracle Financial System is primarily a financial reporting tool with little scope available for detailed descriptions of each transaction; consequently, it does not keep a record of the names & numbers of people or the purpose of trips paid by the department.

Additionally, the department’s Oracle Financial System does not have separate general ledger accounts for car rental, hire cars, taxis, accommodation and entertainment expenses incurred while on overseas travel; these expenses are included with domestic expenditure.

The expenses detailed below are those which have been separately identifiable using the department’s Oracle Financial System.

It should also be noted that the figures do not include travel costs from the Ministerial Office cost centre, as the question is only concerned with expenditure by the Department of Justice. In August 2007 the Brumby Government committed to release quarterly reports that provide information on overseas travel by Ministers, including costs and benefits. The Honourable member may wish to consult the following site for this information:

http://www.diird.vic.gov.au/CORPLIVE/STANDARD/PC_65191.html

Expenditure on overseas airfares and overseas personal expenses by areas under my responsibility for the financial years 2000–01 to 2006–07 are as follows:

Skills and workforce participation: vocational education and training

9644. MS PENNICUIK — To ask the Minister for Industry and Trade (for the Minister for Skills and Workforce Participation): In relation to the Victorian Government’s vocational education and training (VET) reform statement *Securing Jobs for Your Future*, August 2008, which states on page 25 under the heading “Concessions and Financial Assistance” that for all courses (apart from Diploma and Advanced Diploma courses) concession fees “will continue to be available” and the document *Guide to Students–Securing Jobs for Your Future*, published by the Department of Innovation, Industry and Regional Development, April 2009, which states in the section “What financial assistance is there?” that “The concession tuition fee is the same as the minimum fee” and that “Some courses also have special arrangements in place to reduce or remove tuition fees”:

- (1) What is the reason for abolishing the previous concession fee of \$55 and substituting a sliding scale of concession fees, which includes a doubling of concession fees for Certificate III and IV courses.
- (2) Under the new VET fee structure, what are the policy definitions of the terms “concession fees” and “minimum fees”.
- (3) Why has a nexus been established between concession fees and minimum fees.
- (4) What is the reason for the substantial increase in the minimum fee for Certificate III and IV courses from January 2011.
- (5) What is the total number of VET students enrolled in Victoria during the 2008-09 financial year who were eligible for concession fees.
- (6) Are all VET course providers able, under the VET reform package, to offer courses either free of charge or at a reduced rate; if not, why not.

ANSWER:

I am informed as follows:

- (1) *What is the reason for abolishing the previous concession fee of \$55 and substituting a sliding scale of concession fees, which includes a doubling of concession fees for Certificate III and IV courses.*

Under *Securing Jobs for Your Future—Skills for Victoria*, a sliding scale of tuition fees has been introduced to reflect the benefit an individual obtains from the completion of courses at different levels. People undertaking training at higher levels gain ongoing benefits in terms of job opportunities and higher wages, and are better placed to contribute to the cost of their training. This is reflected in the new tuition and concession fee rates across all Certificate levels.

- (2) *Under the new VET fee structure, what are the policy definitions of the terms “concession fees” and “minimum fees”.*

Under the *Education and Training Reform Act 2006*, the 2009 Ministerial Directions about Fees apply to all enrolments in Victorian Government funded training and further education.

The Directions instruct all training providers contracted to deliver government funded training to charge concession fees to eligible students. This applies to all persons holding a Commonwealth Health Care Card, a Pensioner Concession Card or a Veteran’s Gold Card. Concessions also apply to a dependant spouse or dependant child of a concession card holder.

In addition, the Directions instruct that the minimum fee is the minimum amount charged in respect of a person’s total enrolments within a course category in a calendar year. This applies irrespective of whether the student is a concession card holder.

- (3) *Why has a nexus been established between concession fees and minimum fees.*

A concession fee is a reduction on the full fee payable to ensure that individual social and economic circumstances are not a barrier to training.

Minimum and maximum tuition fees apply to course categories and overall fee caps for all training undertaken within a calendar year.

- (4) *What is the reason for the substantial increase in the minimum fee for Certificate III and IV courses from January 2011.*

Under *Securing Jobs for Your Future—Skills for Victoria*, tuition fees for government subsidised training vary in line with qualification levels. While the minimum fee for Certificates III and IV courses will increase to reflect the ongoing benefits for individuals in terms of job opportunities and higher wages, it remains a relatively small contribution, to the total cost of training.

- (5) *What is the total number of VET students enrolled in Victoria during the 2008-09 financial year who were eligible for concession fees.*

Registered Training Organisations report data to Skills Victoria based on an academic year. Data on the total number of VET students enrolled in Victoria during the 2008-09 financial year who were eligible for concession fees is not available. Data on the number of course enrolments ‘granted’ a concession in 2008 is available.

In 2008, there were 91,487 enrolments in government funded VET courses where at least one module/unit was granted a concession.

It should be noted that VET students often enrol in more than one course during an academic year. Therefore, the figure above does not represent students. One student may account for more than one enrolment.

- (6) *Are all VET course providers able, under the VET reform package, to offer courses either free of charge or at a reduced rate; if not, why not.*

Under *Securing Jobs for Your Future—Skills for Victoria*, minimum and maximum tuition fees apply to course categories and overall fee caps for all training undertaken within a calendar year. Training providers have the flexibility to set the rate as low as they choose, provided the fee is within the set range.

As has always been the case, individual providers have some discretion to offer tuition fee concessions below the minimum rate, for example in exceptional cases of extreme hardship.

In addition, fee exemptions may apply as a result of special arrangements with the Commonwealth Government, for example for certain courses in Children’s Services. Tuition fee waivers have been introduced for enrolments in existing government funded places at Certificate levels I to IV by job seekers referred through a Job Network provider.

Further, students who are prisoners, detained, held on remand or required to undertake training as part of a Court Order are not charged tuition fees.

Skills and workforce participation: vocational education and training

9645. MS PENNICUIK — To ask the Minister for Industry and Trade (for the Minister for Skills and Workforce Participation): In relation to the Victorian Government’s vocational education and training (VET) reform statement *Securing Jobs for Your Future*, August 2008, which states on page 25 under the heading “Concessions and Financial Assistance” that “in conjunction with the Federal Government ... access to income contingent loans [will be made available] for people training at the Diploma and Advanced Diploma level”, the document *Guide to Students—Securing Jobs for Your Future*, April 2009, which identifies the loan scheme as VET FEE-HELP and a fact sheet issued by the Commonwealth Department of Education, Employment and Workplace Relations titled *Extension of Assistance to Victorian Government Subsidised Students*, which sets out the conditions of access for Victorian VET students seeking VET FEE-HELP loans as of 1 July 2009:

- (1) Why is the loan fee of 20 per cent which applies under the VET FEE-HELP scheme not mentioned in the *Guide to Students—Securing Jobs for Your Future*, published by the Department of Innovation, Industry and Regional Development, April 2009.
- (2) What effect, if any, has the defeat on 18 August 2009 in the Australian Senate of the Higher Education Legislation Amendment (Student Services and Amenities, and Other Measures) Bill 2009 had on Victorian VET Diploma and Advanced Diploma students in Government subsidised places who have enrolled since 1 July 2009.
- (3) What action has the Minister taken, or does the Minister propose to take, to assist Victorian VET Diploma and Advanced Diploma students in Government subsidised places who have enrolled since 1 July 2009, given that their anticipated access to VET FEE-HELP has been denied.
- (4) Will Victorian VET Diploma and Advanced Diploma students in Government subsidised places who have enrolled since 1 July 2009 now be required to pay their tuition fees up-front.
- (5) What special provisions will be implemented to assist VET Diploma and Advanced Diploma students who have enrolled since 1 July 2009 and are Commonwealth Health Care Card holders, to meet tuition fees in the absence of access to VET FEE-HELP loans.
- (6) What advice has the Minister received from the Federal Government regarding future legislation that will enable Victorian VET Diploma and Advanced Diploma students in Government subsidised places to access VET FEE-HELP or an equivalent scheme.

ANSWER:

I am informed as follows:

- (1) Why is the loan fee of 20 per cent which applies under the VET FEE-HELP scheme not mentioned in the *Guide to Students—Securing Jobs for Your Future*, published by the Department of Innovation, Industry and Regional Development, April 2009.

The loan fee is not mentioned in the *Guide to Students—Securing Jobs for Your Future*, published by the Department of Innovation, Industry and Regional Development, as the Commonwealth Government agreed in late 2008 to meet the administrative costs of extending the scheme to subsidised students in Victoria and not charge these students a loan fee. The *Guide to Students* was released in April 2009 well in advance of the 1 July 2009 implementation date for *Skills for Life—the Victorian Training Guarantee* for Diploma and Advanced Diploma students.

It was the expectation of both the Victorian and Commonwealth Governments that the necessary legislative amendment to the *Higher Education Support Act 2003* (HESA) to remove the loan fee for subsidised students would have been supported by the Federal Parliament and received Royal Assent by 1 July 2009.

- (2) What effect, if any, has the defeat on 18 August 2009 in the Australian Senate of the Higher Education Legislation Amendment (Student Services and Amenities, and Other Measures) Bill 2009 had on Victorian VET Diploma and Advanced Diploma students in Government subsidised places who have enrolled since 1 July 2009.

It is quite disappointing that the Liberal National Coalition blocked the Student Services Bill from being passed in the Senate. This bill would have provided valuable resources to be provided to universities to support students.

The Commonwealth Government has advised that it is using its best endeavours to ensure that Victorian Government subsidised students eligible for VET FEE-HELP assistance are not disadvantaged, and that their VET FEE-HELP loan amount will not include the VET FEE-HELP loan fee.

Until the Federal Parliament passes the proposed amendments to the HESA in relation to the VET FEE-HELP loan fee, there is no change to the loan fee arrangements and students accessing VET FEE-HELP assistance will incur a VET FEE-HELP debt which includes the 20 per cent loan fee.

- (3) What action has the Minister taken, or does the Minister propose to take, to assist Victorian VET Diploma and Advanced Diploma students in Government subsidised places who have enrolled since 1 July 2009, given that their anticipated access to VET FEE-HELP has been denied.

The VET FEE-HELP Guidelines and VET Provider Guidelines were amended and released for public comment on 2 June 2009. These amendments extended VET FEE-HELP assistance then only available to full fee-paying students to government subsidised Diploma and Advanced Diploma students in Victoria. No adverse comments were received during the consultation period and the amended Guidelines took effect on 1 July. As a result of these changes to the Guidelines, government subsidised Diploma and Advanced Diploma students in Victoria can access a VET FEE-HELP loan if they are enrolled with a registered training organisation who is approved as a 'VET provider' under HESA. All 18 TAFE institutes in Victoria are approved to offer VET FEE-HELP assistance to their students.

The defeat of the *Higher Education Legislation Amendment (Student Services and Amenities, and Other Measures) Bill 2009* on 18 August 2009 does not mean that Victorian subsidised students are denied access to VET FEE-HELP.

- (4) Will Victorian VET Diploma and Advanced Diploma students in Government subsidised places who have enrolled since 1 July 2009 now be required to pay their tuition fees up-front.

As a result of changes to the VET FEE-HELP Guidelines and VET Provider Guidelines that took effect on 1 July 2009, Victorian students undertaking a government subsidised Diploma or Advanced Diploma will be able to access a VET FEE-HELP loan if they are enrolled at a registered training organisation that is approved as a 'VET provider' under HESA.

- (5) What special provisions will be implemented to assist VET Diploma and Advanced Diploma students who have enrolled since 1 July 2009 and are Commonwealth Health Care Card holders, to meet tuition fees in the absence of access to VET FEE-HELP loans.

As outlined above, government subsidised Diploma and Advanced Diploma students in Victoria can access a VET FEE-HELP loan if they are enrolled with a registered training provider who is approved as a 'VET provider' under HESA.

- (6) What advice has the Minister received from the Federal Government regarding future legislation that will enable Victorian VET Diploma and Advanced Diploma students in Government subsidised places to access VET FEE-HELP or an equivalent scheme.

I have written to the Hon Julia Gillard, MP, Deputy Prime Minister, expressing my disappointment that the legislative amendment to remove the loan fee for these students was defeated in the Federal Senate on 18 August 2009.

I am pleased to advise that the amendment was reintroduced into the Federal House of Representatives on 9 September as part of the *Higher Education Support Amendment (VET FEE-HELP and Tertiary Admission Centres) Bill 2009*. The Bill makes explicit reference to the loan fee reduction being retrospective applied to liabilities incurred since 1 July 2009.

I would like to encourage you to contact Liberal and National coalition members who blocked the original bill and urge them to pass this legislation.

Agriculture: advertising expenditure and media and communications staff

- 9660. MR D. M. DAVIS** — To ask the Minister for Industry and Trade (for the Minister for Agriculture): For the financial years 2007–08 and 2008–09, what was the total amount spent on advertising and promotion by the Department of Primary Industries and how many full-time equivalent staff were employed in media, public relations and communications roles by the Department.

ANSWER:

I am informed that:

For the total amount spent on advertising and promotion by the Department of Primary Industries (DPI), I refer the Member to response to Question 9590.

Full-time equivalent staff employed by DPI in media and communication roles was 39.9 for the financial year 2007–08 and 40.7 for the financial year 2008–09.

Housing: maintenance

10 104. MS LOVELL — To ask the Minister for Environment and Climate Change (for the Minister for Housing): In relation to the \$99 million allocated to Victoria for public housing maintenance works under the Nation Building and Jobs Plan (NBJP):

- (1) What will be the distribution of NBJP maintenance and repair projects across Victoria and have any regions been excluded from the works; if so, for what reason.
- (2) What criteria is being used to determine those properties submitted to the Federal Government as part of the Victorian Government’s proposals.

ANSWER:

I am informed that:

- (1) It is anticipated that a number of properties in each region will receive repairs and maintenance works under the Nation Building Social Housing Initiative, as follows:

Region	Units
Barwon	1163
Eastern Metropolitan	641
Gippsland	569
Hume	359
Loddon Mallee	224
North Western Metropolitan	1574
Southern Metropolitan	1191
Grampians	279

Please note that there may be variations to these plans, in accordance with standard operating practices and market conditions, for example.

- (2) Victoria’s repairs and maintenance projects target properties that are approaching the end of their economic lifecycle or are aligned with the Office of Housing’s maintenance schedule in order to bring these properties to a good condition and ensure their retention with the Office of Housing’s asset portfolio for a further 15-20 years.

In particular, properties have been targeted:

- within local government areas that are aligned to the Melbourne 2030 strategy, regional cities and growth corridors;
- that provide for high needs groups including singles, people experiencing homelessness, and Indigenous Victorians in high demand areas across Melbourne and regional Victoria, including rooming houses;
- in an urban environment, such as high-rise buildings; and
- that have become vacant in Metropolitan Melbourne and Geelong.

- (2) When does the Government intend to have all projects completed.
- (3) Is there a time frame for the Victorian Government to expend all Federal Government funding under the stimulus program.
- (4) Is there a requirement for the Victorian Government to provide regular progress reports to the Federal Government in respect to the repair and maintenance component of the NBJP; if so, has the Victorian Government met all of its obligations under this reporting framework and if not, why not.

ANSWER:

I am informed that:

- (1) Victoria is aiming to complete repairs and maintenance works at approximately 6000 properties under the Nation Building Social Housing Initiative. As at 30 September 2009, works had been completed at 2270 properties.
- (2) As required under the Social Housing initiative guidelines, Victoria is on track to complete all repairs and maintenance works under the Nation Building program by 30 June 2010.
- (3) Under the Social Housing Initiative guidelines, the repairs and maintenance funding allocation of \$99.2 million must be fully expended by 30 June 2010.
- (4) Under the Social Housing Initiative guidelines, Victoria is required to submit monthly progress reports to the Federal Government. The reports provide details of repairs and maintenance works completed in the preceding month and the payments associated with those works. To date, Victoria has met all of its repairs and maintenance reporting obligations.

Energy and resources: computer security

10 164. MRS PEULICH — To ask the Minister for Industry and Trade (for the Minister for Energy and Resources): In relation to laptop, notebook and palm computers from each Department and agency within the Minister’s portfolio that have been lost or stolen:

- (1) How many have been reported lost or stolen between January 2006 and October 2009 inclusive.
- (2) What was the total value of the computers that were lost or stolen.
- (3) Did any of these computers contain information that could be regarded as sensitive.
- (4) What steps have been taken to ensure that any commercial or sensitive information was not compromised.
- (5) Was the loss or theft of any of these computers reported to the police; if so, when were these reports made, and —
 - (a) of those reported, what has been the outcome; and
 - (b) if any were not reported to the police, why not.
- (6) What steps, have been put into place with a view to eliminating or reducing these losses.
- (7) When were these steps put into place.

ANSWER:

I am informed that as at the date the question was raised:

1. During the period from January 2006 to October 2009, 77 laptops, computers were lost or stolen.
2. The total value of these computers was approximately \$218,000.
- 3&4. It is possible that some of these laptops may have had sensitive information on them, however the department and its agencies utilise computer password protection and thus it is unlikely that this information could have been accessed or compromised. To ensure the safekeeping of sensitive or commercial information, the department and its portfolios store this type of information on network drives rather than on personal computers that are also subject to 'password' protection.
5. As a requirement of Departmental policies and procedures, all assets 'stolen' were reported to police at the time the incidents occurred, except for one instance when a laptop was stolen from a hotel lobby, it was reported to the hotel security staff. None of the stolen items have been recovered.
6. The Department and its portfolio entities have undertaken a number of initiatives to eliminate/reduce the incidence of lost/stolen laptops. Some of these include the continual updating of loss and stolen guideline documents, issuing specific guidelines about the physical security of laptop computers, improving security at certain work sites and regularly enforcing the changing of computer and system passwords. Furthermore centre leaders are kept informed of the occurrence of thefts and losses so that staff are informed and maintain an awareness of computer security. Each departmental computer is assigned to a member of staff who assumes responsibility for its security and use. Computers, like other assets, are subject to annual electronic stock take and certification by each staff member.
7. Assets stock take processes have been in place since the inception of the Department in 2002 as have many of the reporting and security measures. These and other initiatives are ongoing.

- (e) 5.00 p.m.;
- (f) 6.00 p.m.; and
- (g) 7.00 p.m.

ANSWER:

I am informed that, as at the date the question was raised:

Traffic signals are managed to provide an efficient flow of traffic.

The traffic signals at this intersection are programmed to provide a minimum 'green' time of six seconds for the right turn movement from Springvale Road into Hutton Road, heading eastbound. The 'green' time for right-turning traffic may be extended if there is high demand for this movement.

VicRoads does not keep records of actual maximum 'green' times.
