Story:

-----  
-----  
I grew up on a farm just out side of Heywood in a place called milltown which is a 15 minute drive to town. The Best thing that I believe about country life is there is never a shortage of places to relax and enjoy yourself there is no need to worry to much about pollution or ways to get around, There is no need for trams or trains around this area, I also believe that for young people to stay around Heywood and its surrounding rural area there needs to be a sufficient enhance in jobs, that are well paying not to far to drive and that are most definiatley close to home the most important thing for me in a job or career would have to be the money in concern because we are between the ages of 18-25 looking for a well paying job that is going to help where is needed such as buying houses or supporting a family. I would love it to happen in the near future for new job openings especially in my home town of Heywood.
