Story:

Did you grow up in rural Victoria?

What's the best thing about country life?

What would you change about country life?

Who do you talk to about rural living?

Are you planning on leaving?

I grew up in a small country town called Heywood.

The best thing about country life is that there are smaller class sizes so there is more access to help in the class.

The one thing that I would change about country life is I would like more job opportunities for people who are interested in either the fashion area(retail) or journalism especially for young people who are in their final year or have just left school.

I talk to people in my family about rural living.

After I have finished Year 12 I will consider moving out of Heywood to Warrnambool or Hamilton so I can do a course I'm interested in,or try and get job or traineeship.
