Story:

My Story is:

Did you grow up in rural Victoria? Yes I've grown up in Heywood and it's a nice quite town

Are you planning to leave or return to country Victoria? I am planning to leave to gain experience elsewhere around Australia.

What would influence your return to the country? Higher pay and more opportunities for younger workers to get into industries such as agriculture, engineering and automative.

What's the best thing about country life? The best thing is there is no crime and every body is friendly in the town and people bond together eg the Wood, Wine and Roses Festival.
