Story:

My story is:

- Yes, I've grown up in Heywood.

- When I leave school I plan to work in the building construction industry
- carpentry. I'd stay here if there was work available.

I like living in the country because of the freedom of it, and it's better
because it is more open, lots of space and not so much traffic.

- I wouldn't really change much about country life, its pretty good
