Comments:

RuralAccess is a state-wide community building project, funded by disability services, DHS. Accessible tourism is a regional priority for RuralAccess in teh Grampains region for 2007/8. At the statewide level, RuralAccess has an issue based workign party for accessible tourism. This group has been working proactively with Tourism Victoria for some years now. Accessible tourism is a growth market, especially for rural and regional areas of Victoria. RuralAccess has the potential to work co-operatively with tourism agencies and service providers to improve and promote their services and increase their market. RuralAcces Gramopians anticipates sending representatives to the hearign to be heald in this region later in 2007.
