

To: Parliamentary Inquiry into Criminal Abuse of Children

Date: 11 September 2011

We are members of the Ballarat Open Place Social and Support Group. We are all Forgotten Australians.

We are all victims of abuse and neglect arising from our time in care.

We demand that the Inquiry look into and recommend a redress/compensation scheme for all those who have suffered as children from our time in "care".

For too long we have been forgotten. It's time we were remembered and provided with the services that we need. Redress is an essential part of this recognition.

We also demand access to all medical and health care. Many of our health and dental needs arise from our time in "care". A free health card will meet this need.

We also demand more resources for Open Place as the work Open Place does needs to be expanded to more Forgotten Australians.
