No 5 what Price do you put on a decent man who's done nothing to anybody he was never convicted or Charged that's the Department of Justice not Knowing there own rules my husband was 17 at the time I got Pregnant I was 15 I also remained a virgin for 4 years befor I got Pregnant a Prisoner gets \$94,000 for a door falling on his Shoulder so whats my husband worth being Labelled a Pedaphile and the way they have Painted me as a Tramp.

No 6. Why Should Bailieu be allowed to have anything to do with the Senate Inquiry as there are criminals within his own offices and who can we trust lets think we can't trust Police, Doctors, teachers, Judges, Lawyers, D.H.S. Workers nuns, and all these body's are involved with Parliament if they wanted to stop it they would have years ago instead of given government money to back this behavior.

No 7, D.H.S. Should also be investigated to how so many kids can die and start drinking taken drugs and why are 14 + 15 year olds allowed to live in D.H.S Houses they told me these kids have careers were are these careers well the kids are doing drugs and having sex to try and get pregnant this person I'm talking about is 14 and lost her mother and baby sister who D.H.S were responsible for I have contacted the coroner about her case she doing the same thing her mother was doing she was dead at 27 somebody stand up and do something.

No 8 Just to finish of all these people I can't trust because there is to much corruption with all body's involved and its time the churches and homes to be held accountable and most of all the government who has several members on there pay roll one social workers husband EX M P. and anothers husband a social worker and a lawyer Hope this goes all the way, to what we Deserve.

Thank you.

J. Lorne.
