11th January, 1961

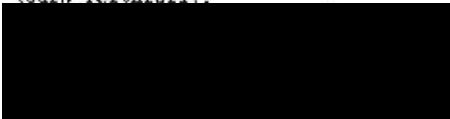

Miss S. McGowan,  

Dear Miss McGowan,

We have been invited to send a small party of boys to a Home not unlike our own in Australia and where we have some boys already. After a time there the boys would be placed in suitable employment and altogether we feel it would be a very good chance for the boys selected, especially when their outside contacts in this Country are not so strong.

Having regard to these circumstances would you be willing to allow your son, Hugh, to be submitted to go to Australia? I should, of course, like to make it clear that investigations are, at present, only in the preliminary stages. I would, too, like you to know that Hugh is very keen to go.

I should be glad to hear from you as soon as possible.

Yours faithfully,  

Superintendent,
