

2012 - Freedom of Information Department; Sexual Offences & Child Abuse Investigation Team (SOCIT) – Moorabbin and SOCIT Head Office - Melbourne.

- I contacted the Victorian Police Freedom of Information Department in May 2012, as I wanted to find any records of the Police statement that I made to SOCA Moorabbin back in 1997 with a view to seeing Lawyers about my case.
- I submitted an FOI application, and was contacted by phone to see if initial searches failed to find any record of my contact on their systems. My request was then sent to SOCA Moorabbin (Now SOCIT) for further searches.
- I was contacted by Detective Senior Sergeant Jamie Jack to inform me that no information was found due to the lapse of time and that records over twenty years are destroyed.
- Det. Jack was extremely helpful and compassionate when I told him about my case and without his support and initiative in sending my request to Castlemaine Police; (where a basic two page document was located); I would have no record of my contact with Police back in 1997.
- September 2012 – contact with SOCIT Head Office – Senior Sergeant Jason Walsh has also been very helpful in providing advice and support in relation to my enquiries about current legal status of my case.
