Introduction – Financial and Performance Outcomes Questionnaire

The Committee's inquiry into the 2024–25 Financial and Performance Outcomes examines:

- the Government's actual versus budgeted expenditure and revenue
- the actual versus target performance outcomes at a departmental/agency level
- other expenditure unforeseen at the time of preparing the 2024–25 Budget, and outcomes achieved.

The inquiry aims to benefit the Parliament and the community by:

- promoting the accountability, transparency and integrity of the executive and the public sector
- encouraging the effective and efficient delivery of public services and assets.

This questionnaire seeks information on the departmental/agency financials for the 2024–25 financial year, what was achieved during the year and how that compares to expectations.

Consistency with the budget papers

When referring to an initiative/program/project that is in the budget papers, please use the same name as is used in the budget papers. This ensures that the Committee can correlate the information provided by the department with the information in the budget papers.

Section A: Output variances and program outcomes

Question 1 (all departments) Completed output initiatives from past budgets – **Not applicable**

For all initiatives that were completed in 2024–25 please provide details of the expected outcomes for the community and the actual outcomes achieved to date. Question 30 (all departments and entities) Challenges experienced by department/agency

Please list a minimum of three main challenges/risks faced by the department/agency in 2024–25.

A significant challenge may be any matter or strategy that impacted the department/agency, whether it arose externally or internally or as a result of new policy or legislation.

	Challenge experienced	Internal/ External	Causes of the challenge	Action taken to manage the challenge/risk
1.	Restoring our Rivers	External	Federal Government Buybacks Plan	GMW have been working with DEECA to minimise any impact on GMW and our customers
2.	Customer Debt Levels	Internal	Flood event	Customer debt was placed on hold due to the floods in late 2022, which lead to an increase in debt levels. Debt collection process recommenced in 2024 and is going well.
3.	High Demands	External	Lower rainfall and higher demand	GMW delivery system was running at capacity with customers in the Dingee, Calivil and Boort areas and these customers experience increased wait times when placing water orders. GMW introduced rationing for these areas in March 2025 to ensure irrigators in these areas could continue to access water during a period of exceptionally high demand. Rationing ended in April 2025 following significant rainfall across the region.
