Introduction – Financial and Performance Outcomes Questionnaire

The Committee's inquiry into the 2024–25 Financial and Performance Outcomes examines:

- the Government's actual versus budgeted expenditure and revenue
- the actual versus target performance outcomes at a departmental/agency level
- other expenditure unforeseen at the time of preparing the 2024–25 Budget, and outcomes achieved.

The inquiry aims to benefit the Parliament and the community by:

- promoting the accountability, transparency and integrity of the executive and the public sector
- encouraging the effective and efficient delivery of public services and assets.

This questionnaire seeks information on the departmental/agency financials for the 2024–25 financial year, what was achieved during the year and how that compares to expectations.

Timeline and format

Responses to this questionnaire are due by **5.00pm on Thursday 13 November 2025**.

Please email the completed questionnaire (in word and pdf) to paec@parliament.vic.gov.au

	Challenge experienced	Internal/ External	Causes of the challenge	Action taken to manage the challenge/risk
1.	Lives lost on Victorian roads	External	Due to a number of factors including, speed, driver distraction, population growth, seatbelt non-compliance and use of drugs and alcohol.	The TAC has invested \$1.52 billion into the Safer Roads Program. In 2024-25, the TAC invested more than \$175 million in road safety, including \$72.25 million in life-saving road infrastructure delivered by Local, Victorian and Commonwealth Governments. The TAC also invests in road safety enforcement, public education campaigns and community engagement to drive positive driving behaviours.
2.	Safeguarding the scheme	External	While the majority of claims lodged, invoices received and payments made through our claims management and payment systems are accurate, it is our responsibility to proactively and reactively identify vulnerabilities and suspicious trends, and mitigate impacts caused by sharp practice and fraudulent activity among both clients and service providers.	<p>During 2024–25, the TAC monitored, reviewed and investigated more than 76 providers across a broad range of disciplines, including surgery, physiotherapy, pharmacy and general practice, to ensure invoices supplied by service providers were an accurate reflection of the services they had provided.</p> <p>In September 2025, the TAC announced reform to how medical practitioners are paid for providing services to TAC patients in Victorian public hospitals. As of 1 July 2026, the TAC will move to a modern and simplified approach to payment for care provide to eligible clients in public health services. This change will move away from separate billing for medical, diagnostic and other services, to a model where all services are funded directly to health services via a single payment for the full episode of care. The new funding model reduces the risk of inappropriate, mistaken, or fraudulent billing of TAC patients.</p>
3.	Supporting clients with severe injuries to optimise independent living	External	Clients with severe lifetime injuries (e.g. acquired brain injuries or spinal cord	In 2024-25, the TAC established an enterprise-wide working group to undertake a comprehensive review of current client service use. The TAC worked closely with clients and families to ensure that the

			<p>injuries) resulting from transport accidents require careful supports and management to ensure they receive the right amount of service</p>	<p>services being accessed are providing the best level of care and support to meet clients' needs and goals for recovery, and to protect and promote their independence wherever possible.</p> <p>The TAC also established a panel in February 2025 through engagement with the NDIS to better manage client experience in transitioning between schemes, and introduced a mandatory clinical review at the time of hospital discharge to support and uplift hospital occupational therapy capability in determining client independence opportunities.</p> <p>These efforts are seeing improvement in client experience and independence.</p>
