I wish to make a submission regarding the subject of euthanasia. I do not wish for this treatment to be made allowed legally. This is because I feel ill or disabled people could be pressured by relatives or others to accept going down this path when there are far more caring ways to go. As a retired nurse, I know that palliative care for patients is more kindly, where neither food or water are withheld and pain relieve is given, along with friendship, counselling or pastoral care. Thank-you for accepting my submission.
