

Inquiry Name: Inquiry into End of Life Choices

**SUBMISSION CONTENT:**

--

We should all be allowed to choose our own way of dying rather than being forced to live for years in pain and agony.

What kind of "life" is that???

We treat our animals with more humanity under these circumstances than people!

Proper and REASONABLE safeguards can be established if necessary ... however, it is my life and if i want to end it then who are you to tell me know???
