Like most Victorians (more than 70% by surveys)I want to be able to control my own death.I know that voluntary euthanasia is successfully controlled under legal conditions in The Netherlands and Switzerland and in at least 2 states in USA (Washington and Oregon).Why do we not follow their successful laws? I have experienced the slow lingering death of my mother-in-law and I think such treatment under our laws is inhumane! I made a submission to the 1987 Inquiry! I turn 90 years old this year and I had hoped that this would have been all sorted by now.
