

I couldn't think of anything worse than not being able to die with dignity. How cruel to watch loved ones suffer. I think it should be a right & why not do it like a will. It should be my choice not to governments. If it's not legal I know that I would try to end my own life somehow and that feels like I'm doing wrong. This is so important to me & if it's not legal than I'll try to do it anyway. So that's why it should be BY CHOICE!
