SUBMISSION CONTENT:

--

I have witnessed the last months of my mothers life. With increasing frequency and severity of ischaemic attacks she was very distressed that she would lose control of her body and ability to communicate very quickly. She desperately wanted the ability to end her life to prevent this. Fortunately she died before this happened.

I demand the right to choose when the time has come to end my life with medical assistance to minimise suffering.
You must pass a bill that allows this.
