To Whom It May Concern

I wish to state my full support for legalising voluntary euthanasia and medically assisted dying.

I am now almost 86 years old and I want the peace of mind that the knowledge of a legal option of medically assisted dying would give me and my family, if my dying were to become too distressful and prolonged.

In other countries where this option is available, very few people actually make use of this choice. However, knowing that medically assisted dying is available lessens anxiety and would provide reassurance to the terminably ill and elderly people fearing an uncertain death.

It would be very comforting for me to know that I could be in control of my life's ending. My doctor should be able to be involved with me and my family in this compassionate process without fear of breaking the law.

Yours sincerely,

Anne Kotzman
