Subject: Dying with dignity
Date: Sunday, 26 July 2015 11:30:38 AM

I've seen so many people, family members included, who have been made to die with little or no dignity, and a great deal of suffering. It is up to parliaments, State and Federal, to allow terminally ill people to choose a peaceful death. There has to be a choice, but it should be a personal choice, not something forced upon them by legislation. Palliative Care is the only "treatment" allowed and it doesn't always work. Please bring our laws into the 21st Century.

Pru. Beattie
