I don't think anyone is going to read this however I will make my feelings known.
I am in m y 80s-have had to make decisions all my life-this is my choice-'Dying with Dignity'
Not only is it cruel to let people suffer unnecesary-that in itself is unthinkable
but it takes away from the young living to get help when all medical facilities
are overstretched and beds are at a premium.Its a two edged sword.
Maybe if the people who oppose this bill could see into their future it would be
different result.,,,Bess McGovan
