I Am pleased to hear that you will be debating the issue of voluntary euthanasia. As I am now 66 years old and have watched many friends die lingering deaths in extreme pain, this is an issue which I feel strongly about. My greatest fear is that I will end my life in a nursing home ,not able to get out of bed or recognise my family, as happened to my father. Please be the first state (other than the NT many years ago) to seriously look into this issue and do something that the majority of people want, instead of what the politicians want! We have an ageing population- at least let us die with dignity at a time of our choosing and with our family nearby.
