

Inquiry Name: Inquiry into End of Life Choices

Ms Linda Walker

SUBMISSION CONTENT:

--

Freedom of choice is everyone's right.

It is my choice that I have control over my end of life decisions and can access medical help if necessary in order not to suffer and to help easily and quickly to end one's life when the time comes.

If others think differently - let them, but do not let them control my way of thinking - it has nothing to do with them.
