---

My name is Norma Kelly , I am a div 1 nurse at Sale acute hospital .I am a member of DWD Vic .I was unaware of the current event needing attention .It would be helpful if more publicity was happening as my work colleagues all feel very strongly in favour of end of life options but are unaware of this chance to voice their opinions .I am frequently put in this agonising position of patients begging me to help them end their life .I always feel I am letting them down when I have nothing to offer .This issue is misunderstood in the community ,it is as if we are trying to talk every one into committing suicide .I would be prepared to attend meetings or what ever else it takes to further this cause .I live at [REDACTED] . [REDACTED]

. Yours Faithfully Norma Kelly .
