Dear Sirs, It seems to me that once abortion became legal euthanasia should have become legal too! Why are we allowed to end the existence of potential people & yet deny real people the right to a peaceful end if they are in pain, old or just sick of living for whatever reason. Over population is now a risk to the environment & yet people in their 70's & 80's, who have had a good long life, are made to endure increasing debility & dependence on others. People who wish to die by natural means should be allowed to do so but those who want a peaceful death at the time that they want to go should have the same privilege.
