

Submission to the Victorian Legal and Social Issues Committee "Inquiry into End of Life Choices".  
30-7-15

Any form of legalised murder degrades society. Look at the downward spiral brought on by promoting abortion. Now perfectly healthy full term children are torn from their mothers' wombs and left to die on a shelf! What is the effect of this on doctors, nurses, the people involved, society, politicians?

What next? This. Pressure on the old, the sick, the handicapped, the unwanted expensive nuisances to be put out of their misery!

We need better palliative care for the sick and old, not a lethal injection. They (us) need CARE, SUPPORT, and LOVE.

Doug Purton
