My submission to this inquiry will not be and has no need to be lengthy or complex.

Simply I believe that it is the right of an individual who is suffering to be able to choose to end their life. Peacefully and with dignity. If they require assistance, they should get it (from a doctor, in case that's not obvious).

Honestly, just research where it has been extensively debated, implemented and is working best elsewhere in the western world. Copy-paste their legislation and slap our government header on it. It's not hard.

Thanks for your time and consideration.
