I have worked in aged care for most of my life and have seen so many peolpe laying in beds just waiting to die. I think this is just cruel.
My mother had alzhiemers and she ended her life not knowing anyone and not able to care for herself.
I am 63 and do not want to end my life like this. I am getting more and more worried that euthanasia will not be allowed by the time I need to access it.
Hospitals are closing everywhere and what is going to happen to all of my age when we need to go to hospital.
We need some form of end of suffering.
I have done an End of life Directive but recently have seen that not all Doctors take notice of this.
I do beleive that Dr Nitschke is an honourable man and agree with what he is trying to do.There maybe things that the Govt. dont agree with,but dont just close him down. There maybe issues that can be used.
Please dont let me suffer along with the other 80% of the population. Please do something for us.
Thank you for allowing me my say even tho I live in SA I have not been given the opportunity by my GOVT to have my say.
