Sec.

Legal & Social Issue Ctee

Parliament Hse.

I wish to write a short submission to explain my support for a change in the law for End of life choices.

I am now v. old & quite sick & I fear what lies ahead of me.

I have decided that when the time comes it is for me to say (not anyone else) that I have had enough.

Just as I decide beforehand what is in my Will so too should my wishes be observed in this far more important matter.

My last years/months/weeks should not be controlled by anyone else nor should I spend them in fear.

The time has come for a change in the law.

Pls. pass this on to the Inquiry, Thank you

RUTH BOSCHEN
