If euthanasia is legalised,
 The elderly handicapped & those who know
 they are not contribute in the work force,
 are more likely to become depressed.

This alone means NO TO EUTHANASIA

If the decision to Legalise Euthanasia
 is yes, the young men & women
 thinking of a medical proffesion, will no
 doubt ^{consider} these end of life choices.

We need the best & more MONEY
 provided for Palliative care.

Sincerely yours
 Tess Fogarty.
