Submission content

Watching my brother-in-law die a painful, deeply drugged death a few years ago brought to my attention the need for a person to have the right and dignity to decide when "enough is enough". This is perhaps regarded by some people as suicide or copping out, but if the sick person has the mental capacity and the will and knowledge of HOW to end their suffering, I feel it is their own right for dignity, and to save the pain to family and friends

You may attach up to three (3) files. They may be up to 6Mb in size and may include the body of your submission.
