SUBMISSION CONTENT:

--

I support any proposal that would grant individuals more control over their own end of life choices, including access to palliative care and to medically assisted, legal euthanasia in cases of terminal illness or chronic, acute pain. I believe that providing those who are suffering from debilitating physical or mental illnesses with the right to choose when and how they die will ensure that individuals are able to choose to die with dignity. While I myself do not suffer from any condition, if I were in that position I would want to be able to make an informed choice to end my suffering at a place and time of my choosing.

Thank you.
