Submission 874

Dear Ms. Hilion Topic

Being an elderly person (over 85 yrs) I  
would like to say that we do not need any  
legislative change to allow assisted  
suicide or euthanasia - we need more places  
that give palliative care for us all, who  
gave the "licence to kill" to the members  
who voted to "kill us off"? as they  
do the poor defenceless unborn babies?  
Doctors are there to heal & care for us  
& not "murder us" or those with mental  
health issues, as they do in Europe.

Let us show the world that we  
in Australia care about our sick  
young & old & mentally ill.

Yrs: faithfully  
MBeeby.
