To Whom It May Concern

Please take into consideration of approving the euthanasia bill. We've seen hundreds of poor individuals who had to suffer in pain for a long time only to die after all the suffering and pain.

For compassion for sick people who have been diagnosed as near to death, or stage 4 or 5 who have expressed desire to end their suffering, why is the government so inhumane, callous and heartless to consider their wishes.

These people would not be asking for death if they're not suffering. Why deprive their wishes.

Lets have more love, consideration and pity for these unfortunate people and give them the choice of continue a life of suffering or to end it all. But who would want a life of pain and suffering?

Thank you
