---

Dear Sir/Madam, I most definitely support this Cause. I have spoken to my family members and have made a Power of Attorney Medical and fully expect my wishes to be carried out. My mother in her 98th year made clear she had had enough and chose to neither eat nor drink but even so it took her TEN DAYS to finally die, she was unconscious and did not recognise my sister nor myself during the whole of this time.

WHY did Sh need to endure this added suffering at the end of her very long life  
I completely support the Bill on Euthanasia and demand it be passed.

Yours faithfully, Joan Ann white
