Attn. Legislative Council's Legal and Social Issues Committee

Dear members,

I have had an interest in this subject ever since my mother died in 1997. Her death was prolonged and not at all pleasant.

For her last couple of years she often discussed the availability of assisted suicide in the Northern Territory but we never took any steps to taking advantage of this situation.

Now I am getting older I have begun to consider how I am destined to shuffle off this mortal coil. After seeing my mother's suffering and that of others I am now a firm supporter of Assisted **Voluntary** Euthanasia. Based on casual discussion with acquaintances and others in my community I am convinced this viewpoint is very popular in the over 60's age group.

I request this viewpoint be taken into consideration during your deliberations.

Regards
Bruce Kerr
