Hi

Please allow Voluntary Euthanasia I've spent 9 years now laying on the bed or sitting in a chair {mostly} on the bed In pain. 5 years ago I was told I have cancer now its getting into the later stages , I ask you how much pain does 1 have to go through , If I was a dog I'd be put down with compassion for the animal, Why? where is my compassion. why do I have to stay alive knowing, I'm going to die, but I have to endure the pain.

Please show me some compassion & allow me to premature Voluntary Euthanasia. Please I'm begging you I'm 65 & want to die with dignity.
