As an Australian I think we all should be able to decide when to die with dignity if the need arises.

My mother in law who is 82 today is suffering heart disease along with other medical issues, she has just had her 3rd heart attack and it is only modern medicine that is keeping her alive, she has no life, no dignity in what is happening to her. She is so weak is in hospital every few weeks and begs us every day to let her go with the little dignity that she has left.

If she were a horse and broke her leg we would put her down, if she were an animal that was in the same condition we would put her down to stop the suffering.

WAKE UP AUSTRALIA AND GIVE THE PEOPLE WHO NEED IT DIGNITY IN DYING.
