**(i) reference to any documents or publications obtained or considered to be of interest in a Parliamentary sense.**

**(j) brief summaries of the study areas pursued in the countries visited.**

As per above

**(k) summary of the results achieved and any recommendations arising.**

In advance of the trip, I engaged with the broad Clarinda District Chinese community around the Victoria China Strategy, who identified some of the key themes of what was announced in the strategy.

Especially important was Objective 3, and I thank the Clarinda District Chinese community for the contribution that informed this objective in particular:

“The Victorian Government is:

- Empowering community leaders and enhancing inclusion and mutual understanding
- Promoting cultural exchange and amplifying the contribution of the Chinese community
- Drawing on the expertise of diaspora networks for economic and cultural collaboration.”

I have followed up the community in the Clarinda District on the strategy and it is leading some of the ongoing engagement that I am leading locally.

I am better informed of transport options and the significant advancements being trialled and/or rolled out in China presently, which are important as the Big Build program continues and evolves.

There is a substantial number of Chinese Australian business owners located in the community that I represent, and the linkage with Chengdu will help to inform future opportunities for Victoria and the community that I represent.
