Owner Operator: Victoria Taxi Licence

- **Yes, owner / operator and driver with son.**
- **Yes, Owned Vic taxi licence.**
- **Yes leased license and drove casually. The lost of income meant my wife and I retiring comfortably to being fully reliant on social security.**
- **\$100000**
- **No transition payments applied.**
- **No tax liability**
- **No legacy liability.**
- **The reforms killed our future retirement. Any future earning for our family was killed off without no consideration of the human devastation that caused to us and so many other people. The reform deliberately hurt hard working taxi drivers doing the work and the hours most Australian looked below them. But a group that was constantly under scrutiny and constantly paying large amount of money to make it the best it could be. But URBER was allowed to walk in with very little requirements at the time.**
- **Yes definitely.**
- **Yes-causally**
- **3/4 of the daily earnings disappeared .**
- **Destroyed it.**
- **Improved by the Labour government paying us a fair amount that the licences were worth instead of showing total disregard and disrespect that all previous owner operators.**
