Subject: [REDACTED] - Licence No. [REDACTED]

I am writing to advise you of our devastation since the Government brought Uber into our lives. This Taxi Licence was my retirement fund and now it has been taken away from me and my wife. My wife is forced to keep working at 70 years old. We have a sick son and my wife needs to stay home to look after him and myself as I am now 80 years old and not of good health myself but she cannot as we cannot pay our bills if she does not keep working.

The stress has also affected my wife's health and she feels unwell every day.

We need to be compensated for the loss of our asset and also for loss of future income.

Allowing Uber to operate illegally in this "lucky country" has destroyed our lives. We sold a house to purchase this Licence and now we have nothing to show for it because the Government can just destroy lives as it chooses.

You need to give the hard working citizens more consideration and how it will impact on our lives when you decide to take our assets.

What if it happened to you? How would you react then?.

A very sad and distraught

John and Tina Skafidas
