Question:

Just in this short time, you gave the graph in terms of public transport patronage. Do you have that by mode, and are you able to provide to that the committee?

Answer:

The graph below shows public transport patronage by mode as the normalised passenger volume to baseline.

Notes:

1. Patronage volumes are preliminary estimates based on myki transactions. Regional mode estimates do not include trips taken on paper tickets.
2. Baselines are based on 2019 patronage with a growth rate applied. This is intended to represent the expectation for patronage if the Covid-19 pandemic had not occurred.
3. Public holidays have been excluded.
