Question:

Budget paper 3, 121, planning for an upgrade of Windsor station southern platform second entrance. It falls under your portfolio responsibilities. Would you be able to advise the committee in terms of just what exactly the scope of those works is, which my community are very keen to see?

Answer:

The Better Stations Amenity Upgrade Program in the 2021-22 budget, includes output funding to examine the feasibility of a second entrance on the Southern platform (Platform 1) at Windsor Station.

The feasibility study will also investigate a range of accessibility improvements at the station while respecting the station's heritage buildings which were built in the late 1800's.
