

LEGISLATIVE COUNCIL ENVIRONMENT AND PLANNING COMMITTEE

Inquiry: **Inquiry into Ecosystem Decline in Victoria**

Hearing Date: Shepparton – 28 April 2021

Question taken on notice

Directed to: Mr Fraser

1. Ms BATH on Page no. 9

Question asked:

Can you provide information on the areas where (the Bendigo and District Environment Council) VicForest were ordered by the department to use tube stock?

Response:

It was not The Bendigo and District Environment Council that was ordered by the department to replant areas that had not regenerated with tube stock. It was VicForest.

The areas lie between Narbethong and Toolangi in the Central highlands. (Ash country)

Areas of interest are south and East of Siberia and Yellowdindi roads. Also in the vicinity of Winch Road.

Also there is an area south East of Narbethong.
