*Question.*

1. LIEUT.-COL. W. C. 8. **MR. McCOLL :** To ask the Honorable the Minister of Railways if he is aware that, even at this slack time of the year, there is a difficulty in meeting the demand for trucks on the railways; and as the production of the country promises, owing to the good season, to be unprecedentedly large during the coming harvest, will he see that every effort is made to secure rolling-stock adequate to the requirements of the country.
9. **MR. ZOX :** To ask the Honorable the Commissioner of Trade and Customs—
  1. If his attention has been called to the immense quantities of small fish that are constantly exposed for sale in the Melbourne Fish Market.

*Questions.*

1. MR. ANDREWS : To ask the Honorable the Minister of Public Instruction under what section or schedule of *The Public Service Act 1883* authority was exercised by the classifiers to refuse classification to a large number of assistant teachers, and to deny them promotion unless they accepted positions as teachers of remote country schools, such teachers holding office in the department as "assistant teachers" of some grade at the time of the passing of the Act, and not being junior assistants.
2. MR. MCINTYRE : To ask the Honorable the Minister of Public Instruction how many male teachers have been promoted from the 5th to the 4th class since the first classified roll was issued, and of these how many have been promoted by means of the 64th section of *The Public Service Act 1883*.
3. MR. L. L. SMITH : To ask the Honorable the Minister of Mines if he is aware that coal was discovered by Mr. Boland in 1862, and reported shortly after, and that several requests were made for a licence to search in Studley Park; also that in 1871 Professor Hawthorn, the geologist, after going over the ground, confirmed the opinion of Mr. Boland, and pronounced it "one of the largest coal-fields in the world"; that the discoverer has now permission from the Board of Land and Works and from the Borough Council of Kew to search, but that through the great delay and other reasons the discoverer has not funds wherewith to bore; and if the Honorable the Minister will grant a sum from the Prospecting fund for that purpose.
4. MR. MADDEN : To ask the Honorable the Minister of Public Works whether, in view of the fact that almost every embezzlement of shire funds is the result of tampering with the rate-books and the collection of rates, he will insert a clause in the Amending Local Government Bill about to be introduced making it compulsory on all municipal bodies to publish a complete list of all overdue rates immediately after the inspecting auditor has completed his audit.
5. CAPTAIN TAYLOR : To ask the Honorable the Minister of Public Instruction—seeing that he has made the following memorandum: "Mr. Burston's claim to transfer is to be satisfied by holding that he was entitled to one of the third-class schools opened in Melbourne since he made application for transfer. Moreland is probably this school, and may be taken as it. When Moreland is raised to the second class, let Mr. Burston's salary be dealt with as if he were its teacher. Meantime, should any third-class school in Melbourne become vacant to which he can legally be transferred, he must take it, in accordance with his application, or forfeit all claim to increased salary"—in what way he proposes to carry out this finding, consistently with public interest, without appointing Mr. Burston to the first vacancy in a third-class school.

### Questions.

1. MR. ARMYTAGE: To ask the Honorable the Attorney-General—
  1. Whether he has any reason to believe that assaults upon women and children are increasing in frequency.
  2. If the facts of the assault committed by one William Maybrick upon a young lady, which was dealt with by the Brunswick Court on Wednesday, the 16th October, would not have warranted a prosecution under the 43rd section of *The Criminal Law and Practice Statute 1864*.
  3. If he agrees with the justices who dealt with the case, in their statement "that the Act did not permit of adequate punishment for the offence."
2. LIEUT.-COL. W. C. SMITH: To ask the Honorable the Minister of Mines if he has seen the statements made by Messrs. John Lynch, senior and junior, and Robert Allen, Mining Surveyors of Ballarat, regarding the probable outlets of the alluvial main leads in the Ballarat District, and the resolution of the Commission urging that immediate steps should be taken to ascertain the facts regarding the same; also if he will take prompt steps to carry out the recommendation of the Commission.

SMITH: To ask the Honorable the Minister of Public Instruction whether the promise given by him in this House on the 25th September last, in reply to a question relative to delay in considering the appeals of junior assistant teachers against the position assigned them on the last classified roll, which promise was that the delay had been caused by the illness and domestic trouble of one of the Board, but that "arrangements had been made for commencing the hearing on Monday, 7th proximo, and continuing same from that date," has been carried into effect; and, if not, what is now the cause of delay, and when will the appeals be heard.
5. MR. ARMYTAGE: To ask the Honorable the Minister of Railways whether, seeing that the new line from Melbourne to Ballarat, *via* Bacchus Marsh and Ballan, is safe for ordinary traffic, and the opening of the line is only delayed to enable some small work to be done to ensure the absolute safety of the fast intercolonial trains, the line will be opened at once to local traffic.
6. MR. HIGHETT: To ask the Honorable the Commissioner of Crown Lands and Survey if he will take steps to have the Kamarooka State Forest fenced off with wire netting, so that the adjoining land-owners may be protected from the rabbits.

2. **MR. HALL** : To ask the Honorable the Minister of Railways—
  1. If he will inquire into the statement made by Mr. Laurens, M.P., in the *Argus* of the 4th November, "That in April last the Railways Commissioners declined to accept the offer of a firm to make 100 trucks at a price equal to that of the lowest tender then received."

#### NOTICES OF MOTION :—

1. MR. BENT : To move, That this House will, this day, resolve itself into a Committee of the whole to consider the propriety of presenting an Address to His Excellency the Administrator of the Government, requesting that an amount be provided to pay the additional sum of 6d. per day to employes in the Railway Department of all grades who received an increase of that amount in 1882.
2. MR. LAURENS : To move, That, in view of the fact that, although the Federal Council has existed four years, during which time no two local Parliaments of the various colonies therein represented have requested that body to legislate on any matter of general interest to such colonies, and also in view of the further facts that New South Wales will not and cannot be forced to join such institution—which under existing circumstances is devoid of all executive authority and incapable of effecting any practical federal enactment of material worth—representatives of this colony should attend the Federal Convention to which Victoria has been invited by Sir Henry Parkes.
