Future Directions

- Additional funds for the Shrine of Remembrance
- Government responds to Victorian Veteran Sector Study Report
- Heritage and History Strategy to safeguard our wartime legacy for future generations
- Veterans will be included in new whole of government initiatives announced in the 2017-18 Budget

Veteran Public Sector Employment Strategy

- \$900,000 over four years (BP3, p102) from 2017-18 to 2020-21 is allocated to deliver the **Public Sector Veterans Employment Strategy** and explore options for a Victorian specific online platform that will assist veterans to access the services they need.
- The Strategy will ensure that we better recognise and capitalise on the valuable skills of our ex-service personnel.
- The Victorian Government is also developing a **Transitioning to Victoria** information pack to ensure information about vocational opportunities, training and other state based services is available for ADF personnel who are separating from the military and relocating to Victoria.
