

PAEC Question on Notice 8

Response to PAEC matter raised by Ms Patten on 31 May 2017, in relation to the LGBTI Community Grants Program.

Please provide an example of the type of outputs attached to the community grants received by Rainbow Families Victoria for instance.

REPLY:

The Government has allocated \$4 million in the 2016-2017 Victorian Budget for an LGBTI Community Grants program for 2016-2020. Each grant recipient has unique outcomes associated with their funding, and these have been defined in the funding agreements for each grant.

Depending on the project, types of outputs will include:

- development of strategic, business, fundraising and marketing plans
- development of a volunteer recruitment strategy
- strengthening of procedures and policies
- investment in information and communication technology (website design; webinar hosting customer relationship management system and donation system)
- training for a committee of management, and
- appointment of a staff position to oversee implementation of these grant activities.

Martin Foley
