

# Legislative Council Economy and Infrastructure Committee

**Inquiry:** Inquiry into the development and expansion of waste-to-energy (WtE) infrastructure in Victoria

**Hearing Date:** 26 May 2026

**Question[s] taken on notice**

**Directed to:** Waste Management and Resource Recovery Association Australia

**Received Date:** 3 July 2026

## **Additional questions on notice from David ETTERS Hank**

### **1. Question Asked to Gayle Sloan:**

Does the WMRR have any guiding principals that include protection of the environment or public health, and if not why not (there are none on the website)?

#### **Response:**

Please be advised that WMRR's Guiding Principles can be found on the [About Us](#) page of the WMRR website, which do clearly include protection of the environment and public health. Guiding Principle 1 and 3 are very specific about this protection. Further the themes of improved environmental and human health outcomes are evident throughout our entire Strategic Plan and Annual Reports that are publicly available as well as our submissions to Government.

### **2. Question Asked to Gayle Sloan:**

Does WMRR provide technical support and education to its members?

#### **Response:**

WMRR provides learning and training opportunities for its members through our Events and Training opportunities we provide to members and interested parties, which include the EfW Conference and a suite of webinars throughout the year. Our Working Groups, Divisions and State Branches also meet regularly enabling members to connect, learn and collaborate on WMRR priorities and advocacy positions. WMRR does not provide technical advice.
