## **Visit to South Korea**

### **July 2023**

## Overview

Visited Seoul, South Korea and met with senior representatives of the National Government and business representatives and discussed planning, energy, infrastructure, high speed rail, tunnels and rail operations, robotics, healthcare, trade and investment.

Participated in briefings and discussions and held meetings where we exchanged ideas on urban planning, energy supply and security, infrastructure planning and investment, metro rail operations, high speed rail, trade opportunities and business development, food security, supply chains, and responses post covid-19. Explored, assessed and considered the application of a range of ideas and the potential benefits to our state as we develop proposals and approaches for Victoria, across the areas of energy, urban planning, smart cities and transport.

Visited the National Assembly of the Republic of Korea and toured the National Assembly building in Seoul. Met with Yu, Eui-dong, South Korean conservative politician and Member of National Assembly for Pyeongtaek 2nd constituency. Received a briefing and information on strategic industries and opportunities.

Met with the Executive Director of the Australian Chamber of Commerce in Korea and were briefed on a range of topics, including Urban Planning, Regional Development, Housing Construction, Smart Cities and Transport links.

The Australian Chamber of Commerce in Korea is the peak body representing the Australia - Korea business community. AustChamKorea represents approximately 110 companies, and the Chamber promotes the Australia-Korea business community through business development, information sharing and networking events.

Of particular interest to our visit was learning more about South Korea having set a new direction for its energy sector, with significant decarbonization goals, aiming to raise the share of electricity from renewable sources from 6% in 2019 to 35% by 2030. Waste to Energy was also discussed.

Met with Adam Cunneen, Commissioner, Victorian Government Trade and Investment Office, North Asia, and received an extensive briefing on business and economic issues and opportunities. Explored energy security and certainty of supply; waste to energy; carbon neutrality; population; opportunities for collaboration and investment. Canvassed current issues and opportunities in healthcare; robotics; training and skills; and research and development. Briefed on the Seoul Food Exhibition 2023 and FoodEx Japan 2024 – The 49<sup>th</sup>

Food and Beverage Exhibition, the largest annual food trade show in Asia. Discussed solar and wind energy (on-shore and off-shore wind generation), supply chain investment and innovative technologies.

Visited N Seoul Tower and discussed population, demographics, city planning, public open space and were briefed on the Public Safety Alert system - a national emergency alerts system for notifying citizens of important information, with messages issued to your mobile phone.

Visited Seoul Station, the major railway station in Seoul and briefed on the Seoul metropolitan subway and the airport rail express trains. Experienced using the Seoul Metro system. Briefed on and used on the Tmoney card and used it to pass through underground transit gates, to catch buses, take taxi cabs, and make purchases. (The Tmoney smart card operates like a debit card.)

Travelled on the KTX inter-city high-speed train along the Gyeongbu High Speed Line to Busan. Arrived at Busan Railway Station and toured the station area discussing, design, security and automatic ticket vending machines.

Met with Mr. John Bocskay, Director of International Affairs, Office of the United Nations Memorial Cemetery in Korea. Performed a wreath-laying Ceremony and paid tribute at the Australian Memorial. Taken on a walkthrough of UNMCK, visiting the Australian Monument, Commonwealth Memorial, grave of 3RAR C.O. Lt. Col. Charles Green, Wall of Remembrance, and Honour Roll Quilt.

Participated in various briefings, including infrastructure, the Port of Busan, Busan harbour, transport, and office flexible workspace design and solutions. Visited the Choryang traditional market.

Joined with senior representatives of the Australian Chamber of Commerce Korea, for meetings with Ross Gregory, Chair AustChamKorea; Arnold Lee, Business Development Manager, AustChamKorea; Grace Casley, Project Manager, AustChamKorea, for an exchange of ideas on energy, planning, transport, business and economic issues and opportunities for Victoria, Australia.

Attended an AustChamKorea Business Development and Networking Event. Provided the opportunity to network with members and representatives from the Australian, Korean and broader business and government communities.

Met with Austrade's Senior Trade and Investment Commissioner and discussed Trade and Business opportunities.

Visit to The Hyundai Rotem Company to meet with Vice-Presidents Kim, Jeong-Hoon and Kim, Sung-Hyun and Project Director for Australasia Kim, Jun-Hwa. Hyundai Rotem was founded in 1977 and is a South Korean company that manufactures rolling stock, defence products and plant equipment. It is a part of the Hyundai Motor Group. Received a presentation on the Hyundai Rotem Company, products and technology and discussed opportunities for Victoria.

## **Key Learnings**

Participated in briefings, meetings and held discussions on key areas in planning, energy, infrastructure and transport. Examined the application of ideas and their benefits to Victoria, with a focus on innovation, research and technology.

The meeting with Yu, Eui-dong, Member of National Assembly and member of the Special Committee on Cutting-edge Strategic Industries provided information on opportunities for innovation, research and development and collaboration.

The briefing with The Executive Director of the Australian Chamber of Commerce in Korea gave us an understanding of South Korea setting the new direction for its energy sector, with significant decarbonization goals, aiming to raise the share of electricity from renewable sources from 6% in 2019 to 35% by 2030. The energy briefing was timely and valuable, given the direction and challenges facing the Victorian energy market.

The meeting and briefing with Adam Cunneen, Commissioner, Victorian Government Trade and Investment Office, North Asia was outstanding, and provided numerous ideas and challenged our thinking and perspective across a range of issues. We took away quality ideas to further explore and examine, in particular opportunities for collaboration, business development, and trade.

The application and use of the South Korean Public Safety Alert system can be further explored for use in emergencies and to disseminate important public safety information.

The experience and information gathered about the Tmoney smart card and how it is used for public transport, including taxi cabs, and to make purchases, operating like a debit card, will be used to influence Victoria's choice and functionality of our future transport smart card. This will be conveyed to the decision makers assessing options for the next Smart Card.

The experience travelling on the KTX inter-city high-speed train along the Gyeongbu High Speed Line, together with the learnings about Railway Station design, security and automatic ticketing was important, helpful, useful and constructive. The learnings and application will be useful in further exploring the use of high-speed rail to connect major cities in Victoria, including an airport rail link.

The meetings and discussion with senior representatives and members from the Australian Chamber of Commerce in Korea provided the opportunity to examine, explore and test a range of ideas around energy, planning, urban design, construction, infrastructure, and transport. We discussed innovative technologies across a broad range of industries, all with the view to their practical application and benefits to Victorian businesses and industries.

## **Attachment 1**

Overview of the meetings and briefings held during this visit.

We thank The Commissioner, Victorian Government Trade and Investment Office, North Asia; The Executive Director of the Australian Chamber of Commerce, Korea; and The Director of International Affairs, Office of the United Nations Memorial Cemetery, Korea for their assistance in arranging the itinerary and for their support during our visit. We also want to thank all those who made time to meet with our delegation during our visit.
